SENATOR BAILEY AND N. Y. NEWSPAPER MAN FIGHT IN GALLERY

Exchanged Blows Just After Adjournment of the Senate.

RESULT OF ATTACK MADE ON SENATOR

NEW YORK TIMES REPRESENTATIVE QUESTIONED MOTIVES OF BAILEY AND ASSERTED HE HAD PLAYED INTO THE HANDS OF ALDRICH IN DEMANDING AN IMMEDIATE VOTE ON THE INCOME TAX AMENDMENT.

By Associated Press. Washington, May 27.—Senator Bailey, of Texas, and W. S. Manning, representative of the New York Times in the senate press gallery, exchanged blows just as the senate adjourned today as the result of a conversation they had in reference to an article printed by the Times questioning the sincerity of the senator in his course on the income tax. Neither participants was injured as they were separated by Senator Clapp, Porto Rican Commissioner Larrinaga and a number of senate employees and newspaper correspondents. A bitter attack upon the author of the article in the New York Times charging that Senator Bailey had played into the hands of Senator Aldrich by his course in demanding an immediate vote on the income tax amendment, and had thus caused a split of forces in supporting the amendment, was made by Bailey on the floor of the senate today. He not only asserted the writer of the article was an "infamous liar" but he is a "miserable creature unfit to associate with honest men." According to both men, the senator's language during his conversation became very emphatic and Manning responded that he had "not the honor to write the story."

Paris, May 27.—Andrew Carnegie and his daughter left here today for London.

Congressional Record No Longer Illustrated Sheet

By Associated Press. Washington, May 27.—The Congressional Record is no longer an illustrated sheet. It never has been very profusely decorated with pictures, but occasionally a wide-awake senator or representative has succeeded in having printed some article carrying illustrations. Even that limited privilege has been withdrawn. When the step was taken no one knows, but Senator Owen of Oklahoma made the discovery. It came yesterday at the conclusion of the address of Senator Bristow on the sugar schedule on the tariff bill.

SPECIAL COMMITTEE URGES THAT THE DRAINAGE WORK BE PUSHED FORWARD AS RAPIDLY AS POSSIBLE

Declares Drainage of Everglades is Absolutely Feasible.

The report covers thirty-three minutewritten pages and is devoted to the details of the drainage work and the progress of the work and the results so far attained. After giving a routine description of the trip up the Miami river on the east coast to where the drainage operations are going on and up the Caloosahatchee on the west, the report discusses the drainage as follows: "After a personal examination of the Everglades from the east and west approaches thereto we feel perfectly justified in saying that the drainage of the glades is absolutely feasible and practical and that its success depends alone upon the number and the size of the canals that are cut through them to Lake Okechobee."

Tallahassee, May 27.—Declaring that the drainage of the Everglades is proving entirely practicable and urging that the work be pushed as rapidly as possible, the special investigating commission, composed of Senators Theop West and J. H. B. Miller and Representatives J. R. Miller, J. W. Hatcher and A. J. Peadar today submitted to both houses a most comprehensive report of the investigations. The report covers thirty-three minutewritten pages and is devoted to the details of the drainage work and the progress of the work and the results so far attained. "Owing to the fact that the Everglades are very inaccessible, personal financial interests prompt the circulation of false reports or statements which in a large measure accounts for the misinformation and prejudice now existing with reference to the Everglades and believing that the importance of this matter justifies your committee in its effort to give you full and accurate information as far as possible, considering the time devoted to the work, we feel justified in presenting you with the information above set out though it be a little long and possibly tedious. However, we think it is correct and reliable in detail and it is our opinion that it is a matter of so much interest and importance to the state of Florida that every means should be exerted to inform our people as to the facts and so enlist the co-operation of every citizen of the state in preserving and retaining what is left to them of this vast and invaluable domain."

"It is our opinion that, if, after reasonable development of these glades, the federal government is made acquainted with the facts in this case and the advantages to be derived from making a canal from Jupiter or Hillsboro inlets on the east coast, thence to Lake Okechobee and down the Caloosahatchee river to its mouth on the west coast, its co-operation can be easily obtained, thus furnishing a public highway from ocean to gulf which will be the pride of every Floridian and the wonder and admiration of the world."

NOW WORTH MILLIONS. "If the price now prevailing, which we do not advise, a vast sum of money could be obtained, aggregating millions, for the state of Florida, and besides this, if a good system of irrigation be established, based upon sound business principles, and this right be reserved in all sales of land, an annual income of from two to four millions of dollars may be obtained from irrigation alone, and then furnish land owners water for irrigation cheaper by far than any has ever been furnished up to this time."

"We suggest that the remaining state lands be sold only in small parcels and then sold only to actual settlers and cultivators and that none be sold now or in the near future unless for drainage purposes for two reasons: First, you do not desire to bring the state lands in competition with lands sold in bulk, and second, you want, when sold, to get much better prices because of the enhanced values by reason of the completion of the drainage work."

A BARGAIN CONTRACTS FOR WORK. "We recommend to the trustees that they push with all possible dispatch the work on the glades, and if possible let several of these canals on contract to reliable and responsible bidders who should be required under heavy bond to do the work under their supervision and in exact accordance with the contract, besides a deposit of a good bonus as an evidence of good faith. Also that they secure at once a good suction dredge furnished with a dipper for light work which must be used to clear out the dams and

By Fred M. Allen.

Tallahassee, Fla., May 27.—"The idea of calling an extra session has never even entered my mind," said Governor Gilchrist this morning. The extra session talk has made its biennial appearance and is vaguely floating through the air but the statement made by the governor puts it all at rest. INCOME TAX IS PASSED OVER UNTIL JUNE 10

SENATOR BAILEY COULD NOT SUCCEED IN GETTING CONSENT OF ALDRICH TO A VOTE IN ADVANCE OF TARIFF SCHEDULES

By Associated Press. Washington, May 27.—By the decisive vote of 50 to 33 the senate today decided to postpone until June 10 further consideration of the income tax question in connection with the tariff. Bailey presented his argument in his usual forcible manner, but did not succeed in conceding to a vote on the income tax in advance of the tariff schedules.

Two amendments to the sugar schedule, on which votes were taken, were those eliminating duties of a standard test from the tariff schedule and lowering the duty on refined sugar from 1.90 cents per pound to 1.82-1.2 cents per pound, and both were defeated.

LIQUOR AND LOBBYING IN HOUSE ALLEGED BY LIGHT IN A STRONG RESOLUTION

All the Firemen Will Be Negroes With Two Exceptions.

TRAINS WILL CARRY MAIL ONLY AND GOVERNMENT INSPECTORS WILL BE ON EACH OF THE TRAINS—THE RACE QUESTION ALONG LINE AS POWERFUL AS AT THE BEGINNING.

By Associated Press.

Atlanta, Ga., May 27.—Interest in the Georgia railroad strike centered tonight in the starting of ten trains tomorrow morning carrying mail only. There will be twelve crews handling the ten trains. Ten of the firemen marked up for the trips are negroes. The other two are white men, who are not members of the firemen's brotherhood. The mail clerks will all be negroes. Postoffice inspectors will accompany each train. This announcement was made tonight following the conference between George M. Sutton, inspector in charge, and United States District Attorney Tate.

"This action was not taken because we are apprehensive of trouble," said Sutton, "but it is deemed wise to have experienced inspectors accompany each of the trains for the purpose of making observations." This action on the part of the postal department is regarded as significant, as the inspectors in reality are peace officers and in case any act of violence affecting the mails should be committed in their presence, their authority will be practically the same as that of deputy United States marshals. No official announcement has been made, but the assertion that United States Commissioner of Labor Neill notified Manager Scott of the railroad that he must make a final decision whether he will accept arbitration has been repeatedly made in authoritative sources throughout the day.

The race question tonight is apparently as powerful as at the beginning of the strike and reports of the moral support by residents in the strike district of the white firemen against the negroes are even more unanimous than at the start of the strike. In view of the fact that negro firemen will be on the trains to run tomorrow messages cautioning sympathizers of the strikers to use their influence to see that no demonstration should be made against the trains were sent out to points along the line.

BAARS AND HOLT WITHIN THE RAILS

THE JACKSONVILLE CHARTER BILL CAUSE OF THE TROUBLE—HOUSE REPORTS THE GENERAL REVENUE BILL—SENATE PASSES TO THIRD READING BILL PROHIBITING CHILDREN AFFECTED WITH TUBERCULOSIS ATTENDING SCHOOLS.

By Fred M. Allen.

Tallahassee, May 27.—Alleging that R. K. Elliott, who has a bill for his relief before the legislature, last night was giving away liquor in one of the house committee rooms, Representative Light of Marion, sprung a sensation in the house this morning when he introduced a strong resolution. The house was in session last night until 2 o'clock in the morning fighting over the Jacksonville charter bill, and the resolution alleges that there was so much disorder that the sergeant-at-arms had to be called upon to quiet things. It further sets forth that the door of a committee room was fastened so it could not be entered from the hall and that within Elliott was giving away liquor.

LOBBYING WITHIN RAIL.

It further sets forth that J. C. Cone, a house stenographer, has been doing much lobbying, and also that Pleasant A. Holt and J. M. Baars last night were lobbying within the rail. The resolution set these allegations forth in several whereases and then provided that only members and representatives of the press should be allowed on the floor of the house and that none but they and duly authorized persons should be admitted to committee rooms.

Several of the members objected to the wording of the resolution, they claiming that it reflected upon members by intimating that they were disorderly while performing their duty as lawmakers. The names of Cone, Holt and Baars were stricken from the resolution by motion, a member holding that the reading of the resolution would have sufficient effect. Light wanted it on the journal. He finally withdrew it, however.

REVENUE BILL REPORTED.

After three days of almost continuous work in the committee of the whole the house this afternoon rose and reported the general revenue bill. It goes to third reading.

During the committee of the whole sessions one hundred and ninety-nine amendments were offered, and of these one hundred and thirty-two were adopted and the rest rejected. An amendment to tax automobiles one dollar per horse power was lost. Another adopted today and made by James Alexander of Volusia, exempting veterans of either army from license up to five hundred dollars.

The Sams general military bill was passed by the house tonight with but two opposing votes.

Mississippi and Ark. Suffered From Storm

By Associated Press. Memphis, Tenn., May 27.—Reports from the surrounding country bring reports of damage by the rain and wind storms. Mississippi and Arkansas seems to have suffered most. The Arkansas river is flooding the surrounding country and flood warnings have been sent out that other rivers will rise above the danger point. In both states the crops are said to have been almost totally destroyed, while

numbers of towns are under water and families have been driven to the roofs of their homes and the only means of transit is by boat. Great damage has been done to the railroads and in several places trains are tied up unable to move, while the telephone and telegraph wires are down in many localities.

Yesterday a tornado passed over the northern portion of Mississippi, wrecking many houses. As yet no deaths have been reported.
